CAREER OBJECTIVE

Computer Science student at Dronacharya College of Engineering with a focus on predictive modeling and automation. I aim to leverage data science to solve complex resource allocation problems, particularly in healthcare, while actively participating in the startup incubation ecosystem to bring tech-driven ideas to life.

EDUCATION

Bachelor of Technology - Computer Science and Engineering 2025 – 2029
Dronacharya College of Engineering

Class XII - PCM Passed 2025
Govt Sarvodaya Vidyalaya, Jaffarpur

Class X Passed 2023
Notre Dame School

FEATURED PROJECT

CareMatrix — AI-Powered Resource Forecasting Project Link
Dronacharya College of Engineering

- Developed a predictive engine using **Random Forest** to forecast hospital patient inflow with a 72-hour lead time.
- Engineered features by correlating environmental variables like **AQI and weather patterns** with historical admission data to improve accuracy.
- Implemented automated load visualization heatmaps to streamline medical staff distribution.

KEY ACHIEVEMENTS

- **3rd Position:** CodeSphere 36-Hour Hackathon at SGT University.
- **Incubation:** Selected for the **ACIC SGTU Incubation Program** to scale CareMatrix for market readiness.
- **National Science Day 2026:** Selected delegate at Vigyan Bhawan for discussions on "Women in Science: Catalyzing Viksit Bharat."

TECHNICAL SKILLS

- **Languages:** Python, C++, SQL, Java.
- **AI/ML:** Predictive Analytics, Random Forest, Feature Engineering, Scikit-learn, Pandas.
- **Tools:** Git/GitHub, Streamlit, Linux, Automation Scripting.

PERSONAL INTERESTS

- **Strategic Chess:** Active player focused on opening theory and tactical endgames; enjoys the mental rigor of calculating multi-step variations.
- **Applied Mathematics:** Strong interest in Number Theory and Linear Algebra, exploring how mathematical theorems underpin modern Machine Learning algorithms.
- **Competitive Problem Solving:** Regularly solving algorithmic challenges to improve efficiency in logical reasoning and code optimization.
